(D) Policies and decisions relating to refunds, if the refund payment would be reportable under federal law to the National Practitioner Data Bank, and warranties.

(E) The clinical content of advertising.

(F) Final decisions relating to the employment of dental office personnel.

However, this subdivision does not prohibit a person from providing advice or assistance concerning the areas of dental practice referred to in this subdivision or an insurer (as defined in IC 27-1-26-1) from carrying out the applicable provisions of IC 27 under which the insurer is licensed.

However, a person does not have to be a dentist to be a manufacturer of dental prostheses.

(b) In addition to subsection (a), a person is practicing dentistry who directly or indirectly by any means or method furnishes, supplies, constructs, reproduces, repairs, or adjusts any prosthetic denture, bridge, appliance, or any other structure to be worn in the human mouth and delivers the resulting product to any person other than the duly licensed dentist upon whose written work authorization the work was performed. A written work authorization shall include the following:

(1) The name and address of the dental laboratory to which it is directed.

(2) The case identification.

(3) A specification of the materials to be used.

(4) A description of the work to be done and, if necessary, diagrams thereof.

(5) The date of issuance of the authorization.

(6) The signature and address of the licensed dentist or other dental practitioner by whom the work authorization is issued.

A separate work authorization shall be issued for each patient of the issuing licensed dentist or other dental practitioner for whom dental technological work is to be performed.

(c) This section shall not apply to those procedures which a legally licensed and practicing dentist may delegate to competent office personnel as to which procedures the dentist exercises supervision and responsibility. Delegated procedures may not include either:

(1) those procedures which require professional judgment and skill such as diagnosis, treatment planning, and the cutting of hard or soft tissues or any intraoral impression which would lead to the fabrication of an appliance, which, when worn by the patient, would come in direct contact with hard or soft tissues and which
